

**Special Delivery**

The table below shows the distance in miles from Jahiem's house to his friends' houses.

Friend	Distance in miles from Jahiem's House
Tara	$\frac{4}{5}$
Kaden	$1 \frac{2}{8}$
Sierra	$\frac{1}{10}$
Carlos	$\frac{5}{4}$

Jahiem is delivering birthday invitations to his friends who all live on his street. Jahiem's house is the first house on the street. Create a representation of the route he should follow. Use pictures, numbers, and words to represent:

- The location of each house including Jahiem's house
- The order for each stop (be sure to label each stop)
- Your reasoning for the order
