

What is the Student Detail by Question Report (SDBQ)?

The score report that results from completing a Virginia assessment is called the Student Detail by Question Report or SDBQ for short. Schools provide SDBQ Reports to families so please contact your child's school for access to these reports.

At the top of the page, you'll see information about your student, the **name of the test**, and your student's **vertical scaled score**. You might also see a **scaled score (0-600)** and a **performance level**.

The **vertical scaled score** shows a student's progress from one test to the next and tells us how close they are to being proficient (on grade level) or advancing to the next.

The **scaled scores range** from 0-600 and tell us if a student is **failing, proficient or advanced**.

0-399 for Fail/Basic **400-499 for Pass/Proficient (on grade level)** 500-600 Pass/Advanced

Next, is a question-by-question description of everything covered on your student's test. The SDBQ report also gives you information about each question's **difficulty level represented as high (H), medium (M) and low (L)**.

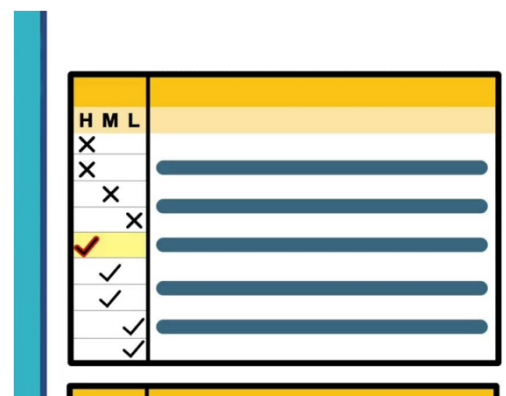

A 'check' means a question was answered correctly, and an 'x' shows it was answered incorrectly.

If you're ready for a deeper dive into these reports, please check out these resources on the VDOE website

[The Overview of the SDBQ Report \(PDF, 4 pages\)](#)

[VDOE Standards of Learning \(SOL\) SDBQ Overview YouTube video \(5 minutes\).](#)

Now that you understand how to use this report, let's look at how your child performed and what to do next by checking out the [Guiding Questions for Parents](#).
